

ByBox on expansion trail

A massive increase in demand for the services of ByBox has led to the firm upgrading three of its main UK distribution centres.

With brands including the Tech Guys, telent and Fujitsu, the flexible supply chain logistics firm needed greater capacity.

In Weston-super-Mare, the distribution centre has grown to become a 9,600-square-foot facility, while in Doncaster

distribution centres in Weston-super-Mare, Doncaster and Gateshead is clear evidence of our level of growth in the parts distribution industry.

"We are very excited at the direction the company is taking."

ByBox holds around 70 per cent of the field service market, and the pre-8am delivery service, operating six nights a week, is considered the best of its type in the UK.

ByBox now has a 10,064-square-foot facility and the Gateshead hub has grown to 7,000 square feet

The company now has 11 distribution centres, as well as a UK hub in Coventry.

Stuart Miller, Chief Executive of ByBox, said: "Our move in growing our

It also has a world-class manufacturing facility in France, which has made and installed more than 54,000 electronic lockers in over 20 countries worldwide.
