

# ➤ Transform your field service inventory management

## ByBox UK Locations

We provide end-to-end visibility and control of your inventory to the field service edge in real-time. With 1,400 locations and 40,000 lockers you can outperform SLAs, maximise field technician productivity, optimise operations and reduce emissions.

# Anatomy of a smart locker

ByBox allows you to deliver and hold your inventory at the field service edge; securely, intelligently and with complete visibility at all times. This gives field service teams round the clock access to the parts they need to resolve issues and allows you to remain in control.

## Boost

- ◆ 24/7/365 access for your field team
- ◆ End-to-end inventory visibility
- ◆ Engineer compliance
- ◆ Engineer safety with contactless deliveries

## Reduce

- ◆ Engineer mileage and drive time
- ◆ Emissions
- ◆ Inventory blind spots
- ◆ Failed jobs

## Key benefits

### Visibility

No matter where an individual part is our software ensures you can pinpoint its location and status

### Intelligence

Our intelligent systems enable a proactive approach to field inventory management

### Security

Secure edge access where field service teams need it most. Our locks and lockers work in combination to offer complete peace of mind

*"Since introducing ByBox we've saved 9% on our fuel emissions and 9% on the mileage engineers drive each year. We have also increased workforce utilisation by 6%."*

- Head of Service Operations (NRTS), Telent
