

Generate regular rental revenue by hosting ByBox lockers

When the world's most advanced field service organizations need secured lockers for the delivery and storage of critical field inventory, they turn to ByBox.

Whether it's an MRI machine, a credit card terminal, or a data center that powers the internet, when critical equipment needs repair, ByBox ensures the right parts reach the right people at the right time and place.

Our customers depend on ByBox lockers to ensure repairs can be made in hours instead of days. And we depend on our network of site hosts to ensure those lockers are close enough to supported customer sites to fulfill that mission.

Become a site host today and join the leading network that supports vital businesses as they serve your friends and neighbors.

Benefits for host partners

- ◆ Once installed, our smart lockers can generate extra revenue from space that would have otherwise been unused
- ◆ Support your local community by helping to keep crucial services running
- ◆ Sites will benefit from increased foot traffic
- ◆ There will be no disruption to your core business
- ◆ There are absolutely no costs to you. The equipment is installed, owned and maintained by ByBox
- ◆ No power is required as the locker is powered by batteries

Why work with ByBox?

Founded in 2000, ByBox is a global final mile technology and services company. We handle over 30 million critical parts a year for the field engineers of many blue-chip companies.

ByBox lockers are installed in 31 countries globally, with over 40,000 secure locations.

Requirements

We have a few basic requirements for becoming a site host:

- ◆ Required space for installation should be approx. 2 inches greater than the dimensions below. (6'3" width, 5" deep and 7'4" tall).
- ◆ 24/7 access to the locker location
- ◆ Preferably in well-lit areas with easy drive access
- ◆ Flat, solid ground to install on (a concrete base can be installed if space is suitable)

OUTER DIMENSIONS & ELEVATIONS

Standard Configuration

Double Column: *Front Elevation*

Double Column: *Side Elevation*

Modular Options

Single Column

Triple Column
